

Greg Hladik, Ph.D.

Auxiliary Services Executive | Applied AI & Smart Mobility Innovator

Email: Greg.Hladik@gmail.com Phone: 405-612-0038 Location: Arlington, Texas

LinkedIn: [linkedin.com/in/greg-hladik](https://www.linkedin.com/in/greg-hladik)

EXECUTIVE SUMMARY

Accomplished executive leader, Student Affairs practitioner, and entrepreneurial operator with 20+ years of experience leading eight-figure enterprises, pioneering world-first mobility and sustainability initiatives, and cultivating high-impact cross-functional partnerships across academia, municipal government, and private industry. Proven track record of transforming campus services into research-driven innovation labs, co-authoring 30+ peer-reviewed publications (175+ citations), securing \$2.1M+ in external research grants, and building collaborative teams across engineering, business, and operations.

Cross-Functional & Interdisciplinary Partnerships: Built multi-entity research alliances bridging UTA Civil Engineering, Computer Science, Marketing, the City of Arlington, North Texas Council of Governments (NCTCOG), and private industry partners.

Student Engagement & Research Integration: Embedded undergraduate and graduate students across computer science, engineering, business, architecture, and design into autonomous shuttle, AI mobility, and drone analytics research.

Graduate Entrepreneurship Mentorship: Partnered with University of Kansas MBA and entrepreneurship graduate teams for real-world consulting projects tied to service-based ventures.

Pioneering Infrastructure & Mobility: Launched world-first Plastic Roads, nation's longest-running self-driving shuttle fleet, and campus-wide AI-enabled Parking Finder.

Academic Output & Scholarship: Supported over 175 academic outputs and co-authored 30+ peer-reviewed publications and federal technical reports.

PROFESSIONAL & EXECUTIVE EXPERIENCE

Executive Director of Auxiliary Services — University of Texas at Arlington

Oct 2021 – Present

Directing an eight-figure campus enterprise, fostering interdisciplinary research partnerships, and leading strategic auxiliary services, mobility, and campus commercial operations.

- Cultivated strategic partnerships with faculty researchers, city leaders, regional transit authorities, and commercial partners to deliver low-cost, innovative campus solutions.
- Personally awarded the 2024 Professional Excellence Award for Innovation from IPMI, 2024 Lifetime Achievement Award from NACAS, and 2024 Organization of the Year by IPMI and TPTA.
- Implemented the nation's longest continuously running self-driving shuttle fleet, seamlessly integrating AV transit with city and campus networks at a total cost to the university of only \$10,000 over 5.5 years.
- Orchestrated the world's first installation of two Plastic Roads recycled-plastic parking lots, doubling asphalt lifespan and saving capital expenses.
- Pioneered Smart Flex Zones for employee parking demand management, avoiding \$690,000 in CapEx in year one and saving employees \$100,000 annually.
- Introduced the AI-enabled Parking Finder app for real-time wayfinding, now assembling a student developer team to rebuild the platform in-house.
- Achieved 100% Gross Revenue growth since 2016 while navigating post-pandemic recovery.
- Built high-performing cross-functional teams and structured dedicated operational units, expanding departmental team capabilities by 150%.
- Oversaw Follett bookstore contract administration, growing campus market share to 30% and doubling Inclusive Access course enrollment.

Strategic Alliances | Autonomous Shuttles | Plastic Roads | Smart Parking Zones | Enterprise P&L

Director of Parking & Transportation — University of Texas at Arlington

May 2016 – Oct 2021

Supervised daily operations of campus mobility, parking enforcement, and transit for 44,000 students, 5,000 employees, and 500,000 annual visitors (\$9.5M budget).

- Established strategic partnership with Groome Transportation, generating \$1.8M in savings reinvested into expanded student transit.
- Secured \$1.7M FTA grant to launch free self-driving shuttles for students.
- Led construction of a 1,500-space parking garage in record 10-month timeframe, winning Best New Structure recognition from TPTA.
- Achieved 212% increase in Safe Ride ridership and driven 4,014% growth in off-campus transit ridership through route optimization.
- Expanded campus circulator generating 95% ridership growth and 232% increase in transit revenue through corporate sponsorships.

\$9.5M Budget | FTA Grant Administration | Public-Private Partnerships | LPR Enforcement

Assistant Director, Auxiliary Services - University Housing — University of Texas at Arlington

Mar 2012 – Aug 2016

Directed business operations, commercial leasing, marketing, and contract administration for University Housing & College Park District mixed-use development (\$20M+ annual revenue).

- Managed commercial real estate leasing, student housing contracts, and auxiliary financial reporting for \$20M+ operations.
- Partnered with marketing faculty and graduate student courses to develop student-led marketing campaigns for College Park Shops.

Commercial Real Estate | Contract Administration | Student Mentorship | Housing Operations

APPLIED AI, DRONE ANALYTICS & MOBILITY INITIATIVES

Arlington RAPID Autonomous Transit Fleet (5.5-Year Pilot)

Nation's longest continuously running self-driving shuttle program integrated into public transit networks. Delivered over 5.5 years with zero reportable safety incidents at a total net cost to the university of only \$10,000.

- First university in the United States to exclusively use self-driving shuttles during a landmark 3-month pilot
- Built a multi-stakeholder partnership team spanning municipality (City of Arlington), private partners (May Mobility, Via), public transit providers, university leadership, academic researchers, and federal grant providers (FTA, FHWA)

Autonomous Vehicles | AV Mobility | Municipal Alliances | Zero Incidents | FTA & FHWA Grants

World-First Plastic Roads Parking Lots

First global installation of recycled plastic-infused asphalt parking surfaces, doubling asphalt lifespan and saving CapEx.

- Awarded 2024 IPMI Apex Award for Innovation & TPTA Restoration Program of the Year
- Collaborative research project with UTA Civil Engineering & Austin Asphalt

Sustainability | Plastic Roads | Infrastructure Innovation | Interdisciplinary Research

In-House AI Parking Finder & Sensor Network

Smart occupancy prediction and real-time wayfinding application covering 65% of campus parking lots with IoT sensor technology and predictive AI algorithms.

- Covered 65% of campus parking lots with real-time occupancy sensors and AI predictive modeling
- Currently assembling and mentoring an internal team of UTA Computer Science students to rebuild the system completely in-house, replacing external vendor technology

Computer Science Mentorship | In-House AI Platform | Sensor Networks | Predictive Analytics

Drone-Based Automated Pavement Condition Index (PCI) & Maintenance Platform

Pioneered a drone-based AI condition assessment system using aerial imagery and computer vision to evaluate parking lot asphalt quality, generate automated PCI scores, and build interactive maintenance dashboards for university and private entities.

- Replaced manual walking audits with autonomous drone aerial surveys
- Builds predictive maintenance schedules and interactive GIS/facility dashboards for institutional clients

Drone Analytics | AI Pavement Assessment | Facility Maintenance Dashboards | Computer Vision

Micro-Sites, Google Apps Scripts & Enhanced UI Workflows

Architected customized micro-sites, enhanced UI intake forms, and automated Google Apps Script workflows (Sheets, Forms, Docs) to streamline business operations, CSR inquiry handling, and lead management.

- Developed custom Google Apps Scripts for automated document generation and CRM data syncing
- Created interactive micro-sites with responsive UI forms for rapid customer inquiry intake

Google Apps Scripts | Micro-Sites | Custom UI Forms | Workflow Automation

AI Sales & CSR Persona Training Assistants

Developed interactive AI bots preparing sales and CSR teams for cold, warm, and ready-to-buy lead intake across diverse customer personas.

- Simulates real-world inquiry scenarios and adaptive customer responses
- Provides mobile-first operational guides for consistent CSR closing

Applied AI | Prompt Engineering | Sales Training Bots | CSR Automation

RESEARCH PARTNERSHIPS & INTERDISCIPLINARY COLLABORATIONS

Automated & Dynamic Pavement Condition Index (PCI) System Key Partners: Drone AI Research Group Collaborative project to develop a drone-based AI-enabled pavement condition index technology, automated scoring software, and interactive maintenance dashboards.	2025
Plastic-Infused Parking Lots (Plastic Roads Technology) Key Partners: UTA Civil Engineering, Pavement Services, Austin Asphalt Pioneered the first real-world application of Plastic Roads recycled-plastic asphalt technology in the world, doubling surface lifespan and reducing CapEx.	2023
Arlington RAPID: Self-Driving Autonomous Shuttles (2.5-Year Extension) Key Partners: UTA Civil Engineering, City of Arlington (COA), May Mobility, Via Multi-stakeholder autonomous shuttle integration project funded by Federal Transit Administration (FTA) and North Texas Council of Governments (NCTCOG).	2022–2025
Distribution of Potential Benefits Across Stakeholder Groups for Shared Electric Vehicles 2023–2024 Key Partners: Georgia Tech, Cal Poly, and UTA Civil Engineering Multi-university research study evaluating shared electric vehicle mobility, commute travel dynamics, and stakeholder benefit distribution.	
Digital Transformation in Parking & Transportation Services: UTA Case Study Key Partners: Tarrant Transit Alliance, Modii, and UTA Civil Engineering Interdisciplinary evaluation and deployment of digital wayfinding, smart parking sensors, and mobile transportation technology.	2022–2023
Intermodal Transportation Hubs for Colleges & Universities Study Key Partners: North Texas Council of Governments (NCTCOG), DFW Colleges & Universities Regional transit hub planning initiative connecting higher education campuses across the DFW Metroplex.	2021–2022
"Faster than Feet" Micro-Mobility & Accessibility Corridors Key Partners: UTA Universal Design Class (2 Course Sections) Embedded undergraduate students into active campus planning to identify and design accessible, high-efficiency micro-mobility pathways.	2022

Shops at College Park Student-Led Marketing Campaigns

2016–2018

Key Partners: **UTA Marketing & Communications Courses (12 Course Sections)**

Multi-year graduate-level class partnerships researching customer motivations, crafting communications strategies, and executing student-developed campaigns for College Park Shops.

GRANTS & RESEARCH FUNDING (\$2.1M+ AWARDED)

Arlington RAPID Phase II: Ridership, Automation & Payment Integration Demonstration

\$865,074

Year: 2023 • **Role:** Co-Principal Investigator • **Sponsor:** Federal Highway Administration / NCTCOG

Digital Transformation in Parking and Transportation Services: UTA Case Study

\$500,148

Year: 2022 • **Role:** Co-Principal Investigator • **Sponsor:** North Texas Council of Governments

Distribution of Potential Benefits Across Stakeholder Groups for Shared Electric Vehicles

\$150,000

Year: 2022 • **Role:** Co-Principal Investigator • **Sponsor:** US Department of Transportation (USDOT)

Arlington Rideshare, Automation, and Payment Integration Demonstration (RAPID)

\$606,456

Year: 2020 • **Role:** Co-Principal Investigator • **Sponsor:** Federal Transit Administration (FTA)

EV Charging Station Expansion Project

\$10,000

Year: 2020 • **Role:** Project Lead • **Sponsor:** Texas Volkswagen Environmental Mitigation Program

HONORS & PROFESSIONAL AWARDS

Excellence in New Parking Program for Campus Demand Management with Zones

Texas Parking and Transportation Association (2026)

Excellence in Technology for Campus Wayfinding & Smart Parking solutions

Texas Parking and Transportation Association (2025)

Professor Joseph M. Sussman Best Paper Prize

Frontiers in Built Environment - Transportation and Transit Systems (2024)

Professional Excellence Award

International Parking & Mobility Institute (2024)

Organization of the Year

International Parking & Mobility Institute (2024)

Excellence in Innovation for Research and Operational Performance of Self-Driving Shuttles

International Parking & Mobility Institute (2023)

Excellence Award for Research and Operational Performance of Self-Driving Shuttles

Texas Parking and Transportation Association (2022)

Program of the Year for Reviving the UTA Transportation System

Texas Parking and Transportation Association (2019)

Best New Facility for the West Campus Parking Garage

Texas Parking and Transportation Association (2018)

Lifetime Achievement Award

National Association of College Auxiliary Services South (2024)

Apex Award for Innovation for implementing Plastic Parking Lots

International Parking & Mobility Institute (2024)

Restoration Program of the Year for Lot 49's Plastic-Infused parking restoration

Texas Parking and Transportation Association (2024)

Restoration Program of the Year for Lot 45's sustainability initiatives

Texas Parking and Transportation Association (2023)

Friend of Student Affairs

University of Texas at Arlington (2022)

Program of the Year for License Plate Recognition Parking Enforcement

Texas Parking and Transportation Association (2018)

Outstanding Leadership Presentation

Leadership Center, University of Texas at Arlington (2014)

LEADERSHIP, COMMITTEES & BOARD APPOINTMENTS

Campus Master Plan Focus Group Chair (2023–2025)

Tarrant Transit Alliance Board of Directors (2022–Present)

Advisory Board for UTA Bike Committee (2021–Present)

Climate Action Plan Search Committee (2023)

Arlington RAPID Self-Driving Transit Shuttle Task Force (2020–Present)

Board of Advisors, Institute for Sustainability & Global Impact (2018–Present)

Chair: SWACUHO Technology Executive Committee (2016–2017)	City of Arlington Transportation Advisory Committee (2017)
COVID-19 Event Response Task Force (2020–2021)	Student Conduct Hearing Officer (2012–2016)
Chair: SWACUHO Research & Information Committee (2011–2014)	

CORE COMPETENCIES & TECHNICAL SKILLS

EDUCATION & CREDENTIALS

Governor's Executive Development Program in Executive Leadership

University of Texas, Austin

2023 – 2023 • Executive Credential

Ph.D. in Educational Leadership & Policy Study

University of Texas at Arlington

2012 – 2018 • Doctorate Degree

M.S. in College Student Personnel

Arkansas Tech University

2006 – 2008 • Master of Science

B.S. in Business Management

Oklahoma State University

2002 – 2006 • Bachelor of Science
